Investment Objective

The fund is a US Dollar denominated, Shari'a compliant open ended fund that will invest in a diversified portfolio of Sukuk both in the MENA region and globally. The primary investment objective of the fund is to achieve high income as well as capital growth. Certain share classes of the fund will make income distributions on a semi-annual basis, derived from income generated by the underlying Sukuk or maturity proceeds of Sukuk.

The Team

With one of the longest track records in the MENA region, Emirates NBD Asset Management operates as an independent asset manager based in the DIFC yet also backed by Emirates NBD Group, one of the largest financial services groups in the UAE.

Within fixed income the team employs sophisticated techniques to drive performance and control risk. This helps manage volatility during periods of market stress, as well as maintain performance above major peers during most periods. The head of the desk, Angad Rajpal has been in the industry for almost twelve years and is assisted in managing the team by Parth Kikani.

The portfolio managers are supported by a group of three analysts. The team includes three CFA Charter Holders and one level-2 candidate who provide in-depth company and security analysis, as well as a dedicated risk management function. The risk management function reports independently to the Investment Committee which provides investment oversight.
