## Investment Objective

The fund is a US Dollar denominated open ended fund, which aims to achieve a high level of income as well as capital growth, predominantly through a diversified portfolio of MENA debt securities of varying maturities along with cash and other ancillary instruments, such as deposits. The fund may also take on exposure to issuers outside the MENA region provided a significant part of their business activity is derived in the region. Additionally, certain share classes of the fund will also distribute income on a semi-annual basis. Declarations will be made at the end of June and December of each year.

## The Team

With one of the longest track records in the MENA region, Emirates NBD Asset Management operates as an independent asset manager based in the DIFC yet also backed by Emirates NBD Group, one of the largest financial services groups in the UAE.

Within fixed income the team employs sophisticated techniques to drive performance and control risk. This helps manage volatility during periods of market stress, as well as maintain performance above major peers during most periods. The head of the desk, Usman Ahmed has been in the industry for almost fourteen years and is recognised as a leading expert in the fixed income space.

The team is also supported by two portfolio managers and four analysts including two CFA Charter Holders and three level-3 candidates who provide in-depth company and security analysis, as well as a dedicated risk management function. The risk management function reports independently to the Investment Committee which provides investment oversight.
